THE TROJAN

stepped ass!
May you always
have bad luck in the
future. No really - you're
a real lovely kid (ugh)

WEST VIRGINIA CENTENNIAL ©

WEST VIRGINIA . . . from a Mountain Wilderness to an Industrial Empire---stands on the doorstep of a second century with a future built around space age advancements revealed within the State. West Virginia is now the scene of some of the world's most advanced radio astronomy study. The National Radio Astronomy Observatory at Green Bank, West Virginia, is a major national center dedicated to the study of space and the universe.

A state with many phases of life will be on review during 1963. One hundred years ago our forefathers constructed a path whose potential has expanded beyond their own foresight. A Centennial Special Exhibits Train with nine cars will stop in all West Virginia Counties with adequate railroad facilities telling the "West Virginia Story" on wheels.

Special parades will be featured during the summer in various West Virginia cities portraying the state-wide theme. The official ambassadors of the celebration, "Miss West Virginia Centennial" will be selected from contestants representing all 55 counties. Chosen because of her beauty, charm, poise, and dignity, "Miss West Virginia Centennial" will make many cross country appearances.

By the dedication of the 1963 TROJAN to our beloved State, West Virginia, the staff of the TROJAN joins with all West Virginians in saluting our State during her 100th Anniversary Celebration.

Garland,

*Best of luck always to a real sweet guy.
Always remember our notis and the prom.*

*Love ya!
Pat*

ADMINISTRATION

Principal, Mr. Joe Vachon
Secretary, Mrs. Emma Dean White

Can you imagine what A. H. S. would be like without these people? They are always willing to assist with any problem, administer discipline fairly and see that we become educated.

We take this opportunity to thank the faculty and Mr. Vachon for everything they have done for us in these six memorable years.
